        INT 21H

        MOV AX, 4C00h
        INT 21h

END
```

Output:

It printed a message Can This
b
e
Love?

I think it printed that way since there was a OFSET Z Command between the b and e, which should be OFFSET

I don't really know anymore, I'm bad at this…
